Celebrating More Than 89 Years of Snacks, Smiles & Success!

The year was 1931. With just \$2,000 and the strong work ethic of founder, David C. Evans, Gold Medal was born. What started with simple drink concentrates has evolved into a full line of concession equipment and supplies including popcorn, cotton candy, Sno-Kones®, and much more.

A lot has happened in our history. The third generation of the Evans family now leads the company and the fourth generation is working here as well. From our humble beginnings, we've grown to over 500 employees supporting efforts from engineering to manufacturing, marketing to customer service. We've been at the forefront of industry innovations, creating new products, continually improving processes, and above all, serving the needs of our customers. Put our experience to work for you. Whether you're new to Gold Medal or a decades-long, loyal customer, we will help you get the most out of your concession business.

We're proud Gold Medal is trusted as the industry's leading supplier. And we are committed to continuing to earn your trust by providing top quality products, service, and support. Together, we will keep making history, now and in the future. You can count on us to deliver snacks, smiles, & success!

Introducing...

Pure Snackin™

As the leader in the concessions food industry, Gold Medal is proud to announce the launch of our latest initiative – the Pure Snackin™ line of products.

Created in response to the needs and expectations of a growing health-conscious consumer base, this line of products will encompass:

- ⦿ **Organic**
- ⦿ **Clean Label**
- ⦿ **Natural**
- ⦿ **And More**

It's Simple...

The heart of the Pure Snackin™ concept is simplicity. Every customer has a right to understand what is in the products they purchase so they can make informed choices. Simple, more familiar ingredients, transparency in the wholesomeness of ingredients, and a lack of artificial ingredients are examples of the standards set for Pure Snackin™ products.

Pure Snackin™ means providing customers with more options. This will not change Gold Medal's traditional award-winning and bestselling products. Rather, it opens new opportunities. In that spirit, we will continue to develop products that are built around these principles:

- ⦿ A simple and short ingredient list that is recognizable and easy to understand
- ⦿ Ingredients that contain no artificial preservatives, colors, or flavors

This will be an ongoing effort. Gold Medal will continue in our commitment to earn trust while growing and responding to consumer expectations.

We are excited to introduce the current products available in the Pure Snackin™ line:

Gold Medal Poppers

Where Taste & Performance Meet

There's a science to popping corn. Gold Medal is invested in providing the latest technologies that will enhance the popping process. We design our machines with a focus on safety, simple operation, and ease of cleaning, all to help you produce the absolute best-tasting popcorn.

Throughout the catalog, you'll find special icons identifying the key features of each popper. These pages serve as a reference guide by explaining what each icon means.

PowerOff® Control

One of our most popular safety features, PowerOff® Control means operators can rest assured knowing their machine will automatically turn off after 15 minutes of idle time. It resets each time a batch of fresh corn is popped. It also:

- Eliminates wasted electricity during idle times to cut down on energy bills
- Reduced heat and wear on the kettle extends the life of the heating element

Key Popper Features Quick Reference Guide

- 
PowerOff® Control A popular safety feature that automatically turns off a machine after 15 minutes of idle time. See the previous page for more PowerOff® Control information and models.
- 
E-Z Klean Kettles The secret behind the E-Z Klean Kettles is the stainless steel cook surface. It's simple to maintain and the long-lasting performance ensures great-tasting popcorn every time.
- 
Fire Suppression Vent hoods and fire drops can be costly additions. Now, you can protect yourself with the highest level of safety in industry-tested PopClean® poppers with the built-in Fire Suppression System. Ideal for theaters, arenas, stadiums, and more. **Fire Suppression is standard on all PopClean® poppers.**
- 
Big Eye Electronic Heat Control How much could an extra set of eyes benefit you? In this case, the Big Eye Electronic Heat Control automatically monitors the temperature, providing you with increased precision and control.
- 
Brute Force Motors Gold Medal has strength where it counts. Large, powerful drive motors mean you have popper performance you can rely upon.
- 
PopClean® Gold Medal offers the highest level of filtration with PopClean®. This unique integrated system functions by trapping and filtering steam smoke and oil vapors created during the popping process. Yet, you'll still enjoy that irresistible popcorn aroma! Originally designed with cinemas in mind, this filtration protects digital projectors, menu boards, and other sensitive equipment. Meets stringent emissions requirements of UL 710B/EPA 202 (5mg). PopClean® has earned the FDNY Certificate of Approval #5830. Ask your Sales Representative for details.
- 
Twin-Arm Suspension Operator safety is the top priority of the double-hung, twin-arm kettle suspension. It prevents accidental oil spills and gives more work room within the cabinet.
- 
Flexipop® It's like two poppers in one! Pop half batches during non-peak times, then flip the switch to pop twice as much for high-demand periods. Your absolute best bet for high-efficiency productivity!
- 
Uni-Maxx® Get the performance you need with a unified kettle and heat element, working together to provide the lowest energy consumption and maximum popping capacity.

NEW! Advanced Touch Screen Controls This intuitive 7" touchscreen display panel is simple to use and provides operators the ultimate user experience. Operators enjoy upgrading to the Advanced Touch Screen Controls because of key features and benefits including: customizable mode of operation; easier to use and train employees; the ability to program and customize recipes; accessibility to videos for quick reference on training and cleaning machine; improved technician diagnostics; back-of-house data; free software updates; customizable exhaust system timeout; and so much more.

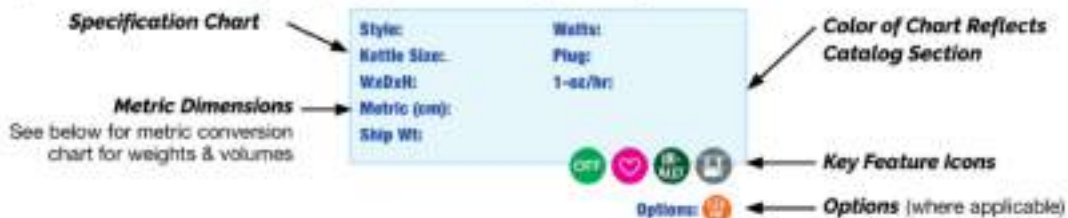

BIB Oil Level Sensor & Bucket Pump You don't have to question what your oil levels are. Located next to the popper controls, this sensor conveniently displays how much oil is left in the Bag-in-Box (BIB) oils. Available on Elite Popper™ Series only.

Kettle Guard Take the extra step in safety with Kettle Guards, which help to prevent accidental kettle burns. Available on large poppers only.

Salt/Sweet Switch Available on larger electronic popper (i.e., Big Eye) kettles, the Salt/Sweet Switch gives you the option to pop sweet popcorn at the proper temperature, preventing sugar from burning.

High Top Kettles Expansion is made easy with High Top Kettles! Designed for 32-oz and 52-oz poppers, the taller lid creates as much as 30% more space, allowing you to pop to the max.

A specification chart will typically appear below equipment photo and machine details.

Which Popper Is Right for Me?

Here at Gold Medal, we design our equipment to be user-friendly, making it easy, efficient, and cost-effective to implement at any location. But how do you know which popper is right for you? Here are 6 questions you need to ask yourself before you go to purchase a popper. Then check out Gold Medal's popper category selections to see which popper is right for you.

- 1 How will the popper be used — what venue?**
- Will it be used at a school concession stand, office, bar, fundraiser, carnival, stadium, zoo, cinema, etc.?
- 2 Who will be operating the popper?**
- Volunteers, adults, young adults, bartender, seasonal help?
- 3 How many servings of popcorn do you need to make in 1 hour?**
- 4 How much space do you have for the popper?**
- Does it need to fit on a counter/does it need to be a floor model?
- 5 How much electric is available?**
- 15 amp, 20 amp, 30 amp, etc.?
- 6 Who will be responsible for cleaning and maintaining the popper?**

Benefits

- Eliminates the need for a vent hood system
- Reduces contaminants that affect digital projection systems

Note: Minimum clearance is 18" from the top of machine to any exhaust or opening to combustible surface above the unit.

Our fire suppression system is an Ansul A-102 wet system. The system charge and arming must be performed by an Ansul certified fire suppression agency. Our customers can go to Ansul.com to locate a qualified local agent. The Fire Suppression System is fully assembled and a tank is provided for the liquid fire suppression agent. The fire suppression company will fill the tank with 3 gallons of Ansul liquid agent. In addition, they will install the CO₂ cartridge to propel the liquid agent. The standard cartridge is a 101-70 for most of our poppers. If it is a twin popper with a ring well, they will require a 101-30 cartridge. All tools and other hardware are provided. The technician will then arm the system. Typically every 6 months they will come back to inspect the system. The cost for charging and arming the system is the responsibility of the end customer.

*Check code requirements of your local health department and fire marshal.

What's the secret to the best-tasting popcorn? You'll find it with Gold Medal oils, seasonings, and supplies! Check out our selection of the finest ingredients, including convenient corn/oil/salt kits.

Flavacol®

The World's Most Popular Seasoning Salt

Flavacol® is made using a proprietary process that results in salt with a finer flake, not a crystal. The result is more salt sensation – but with less sodium.

#2045

#2500

#2019

A far better buttery flavor than any other brand

- Available in the original profit-maker formula, Premier (natural color), or Better Buttery (BB) taste
- Comes in handy quart-size cartons, 45 lb pail, or 50 lb bulk pack
- Gluten-free
- Featured in all Mega Pop® Portion Paks

Want to sell more popcorn?

Then Flavacol® is your secret ingredient! Worldwide, more popcorn is popped with Flavacol® Seasoning Salt than any other.

The reasons are simple: sophisticated processes remove trace minerals in salt that can lead to bitter taste, and the right blend of ingredients brighten the color for maximum sales appeal. Most importantly, Flavacol® adds an even bigger, buttery taste, so you sell more popcorn and make more money.

Cotton Candy Machine Terms 101

Ribbon Heat Element

- Heats up immediately and responds quickly to adjustments
- Best suited for owners/operators that know when and how to adjust the machine
- Element can be damaged if machine is not operated/cleaned properly

Tubular Heat Element

- Takes slightly longer than the ribbon element to heat up and is slower to respond to adjustments
- Best suited for rental customers and multiple users who may not be as familiar with the operation of a cotton candy machine
- Element is almost indestructible
- Featured in all cotton candy machines with "Breeze" in the name

When it comes to the unforgettable sweetness and perfectly crisp crunch of waffle cones, count on our easy-to-use, world-famous mixes – just add water!

One-Step Belgian Waffle Mix

#5017

Case Count: 6; Capacity: 5 lb bags

This is our most popular mix. Just add water to create authentic Bavarian and Belgian waffle flavor and “come back for seconds” sales.

Waffle Dog Dipsy Dog Mix

#5116

Case Count: 6; Capacity: 5 lb bags

Change up your ho-hum corn dogs by baking them in this signature mix using our #5044 Waffle Dog Baker.

Chocolate Dip Coating

#5519 (40-lb tub)

Great desserts are synonymous with great chocolate. Our superior chocolate is made with real cocoa butter and works better than other standard ice cream dip products. Perfect for fudge puppies and waffles, this dip is specially compounded to work with a slightly warmed waffle, adhering in a relatively thin coating and requiring no refrigeration.

Batter Dispenser

#8220 Type K Dispenser

#5196 Dispenser Holder

#76365 16" Tong

A classic industry standard that dispenses any kind of batter, it's a must-have tool for measuring 1/2 to 3 oz of batter for making giant waffle cones, Belgian waffles, ice cream sandwiches, and more.

Granulated Peanuts

#4128 30 lb case

Fudge puppies and waffle cones aren't the only snack made livelier by the crunchy kick of peanuts. They're the perfect, low-cost topping for caramel apples, ice cream, and more.

Food Allergens

Required by law as of January 1, 2006, food producers must list food allergens on all food product package labels.

A food allergen is any edible substance that causes a person to have an allergic reaction or something to which a person would have a strong aversion. According to the Food Allergen Label Consumer Protection Act (FALCPA), governed by the Food and Drug Administration (FDA) of the United States government, there are eight predominant food allergens: milk, egg, soy, fish, wheat, peanuts, tree nuts, and crustaceans.

There is no cure for a food allergy; only strict avoidance of the allergy-causing food can prevent an allergic reaction. Anaphylaxis is the most severe type of allergic reaction. It is sudden, severe, and potentially fatal. It results when the body's immune system reacts to otherwise harmless food proteins. The occurrence of an anaphylactic reaction can vary. It can begin very suddenly within seconds of eating a food, or occur hours after having ingested the food. Anaphylaxis should always be considered a medical emergency, as it may result in brain damage or death.

Anaphylactic symptoms can include:

- Hives
- Swelling of the lips, tongue, and throat
- Nausea
- Shortness of breath, wheezing
- Drop in blood pressure
- Loss of consciousness

For more information about food allergies visit www.foodallergy.org.

To verify if an allergen is present in a Gold Medal Products Co. product, read the ingredient label or contact your Gold Medal dealer or distributor. Food allergen cross-contamination occurs when any allergen is introduced to another or a non-allergen product. When changing products, identify any and all allergens that exist between products. When products' allergens differ, all contact surfaces and equipment must be thoroughly cleaned with soap and water to avoid cross-contamination.

Gluten

Gluten is a protein in wheat, rye, oats, and barley. Common Gold Medal products that do not contain gluten are Sno-Kone® syrups and concentrates, Flavacol®, Frusheez® mixes, Flossugar, Flossine®, Mega Pop® popcorn/salt/oil kits, Gizee Pop® mixes, Complete Corn Treat mixes, and Caramel, Basic, and Chocolate Corn Treat concentrated mixes. For a comprehensive list of products go to our website www.gmpopcorn.com or contact your Gold Medal dealer.

Religious Documentation

Many of our products are Kosher and/or Halal-certified. Certificates are available on request, or can be downloaded from our website at www.gmpopcorn.com.
